### CAREER SUMMARY

I am indeed a great example of dedication, agility and life-driven problems solver.

My fascination to foreign culture led me first to China, where I learned this cryptographically looking language, became a fluent speaker and certified translator.

Lately I had successfully implemented my skills throughout my career in the foreign economic activity industry.

Recently, when my family decided to establish a collaborative business, I have discovered for myself a fascinating world of development. At first, it was just my aspiration to build a webpage for our company, but I became obsessed with the new world of creative opportunities to implement your solutions and make them alive.

### MY PROJECTS

#### USER LIST

**This project** aims to manipulate a list of users. It provides an opportunity to get a list of users, create a new user, change user data and delete user or the entire list if needed.

**Tech stack:** including but not limited to Node.js, Express.

**Learning curve:** It took me a while to figure out how to build the code structure.

**What was cool:** I had also figured out how to use `async/await`.

#### GITHUB REPOSITORIES SHORTLISTER

This APP aims to represent the list of certain user's GitHub repositories and check their descriptions.

**Tech stack:** including but not limited to JavaScript, React, Redux, Tailwind.

**Learning curve:** I learned how to build routes and navigation within the app, how to work with the app layout using Tailwind.

**What was cool:** Also it was great to practice how to work with `useState/useEffect/useParams`.

### ACADEMIC BACKGROUND

#### **Harvard University**

CS50's Introduction to Computer Science (June 2021 – Dec 2021)

#### **SkillCrucial**

JavaScript Full Stack Developer course (Feb 2020 – Aug 2020)

JavaScript, Node.js, Express, React, Redux

#### **CodeCademy**

Learn JavaScript (Nov 2021)

Learn Intermediate JavaScript (Nov 2021)

Learn Node.js (Dec 2021)

#### **Hexlet**

HTML, CSS and Web Design basics (Feb 2021)

#### **Stepik**

SQL course (Mar 2021 – June 2021)

#### **Novosibirsk State Technical University**

BA Linguistics and Chinese (Sep 2011 — June 2015)
